Congratulations to Ashley, Daniel and Jessica who received an **IEB Outstanding & Commendable Achievement**, placing them in the top 5% of all learners in 6 or more subjects and in the top 60 of all students countrywide. No school had more students than HeronBridge in the top 60, and we are one of only five schools in the entire country to have three students receiving this award.

Mathematics Literacy

These outstanding results are particularly significant to us for several reasons:

- We make every effort to enrol every student who wishes to be at our school.
- It is our desire to assist every child to achieve to his/her greatest potential and, as a result, our pass rate across all grades is in excess of 98%.
- We believe that each and every student has what it takes to pass at matric level and we encourage our students to persevere including those that may find academic rigour challenging.
- Our overarching goal is to provide an all-round educational experience comprising sport, cultural, outreach and academics to every student who joins our community.

God has given the HBC class of 2018 wonderful gifts. We are grateful to Him for His hand on this group of young people as they have seen school to completion. All glory to God for these magnificent results! It is our prayer that our 2018 matriculants will use what they have been given to become significant and responsible adults, impacting the lives of those less fortunate than themselves and honouring the Lord in all that they do. We wish them well and hope that they will now go out and 'do' life with Heart.

Keith Wilke
